JORDAN'S PRINCIPLE

First Nations Health Authority
Health through wellness

FACT SHEET

Jordan's Principle

WHAT IS JORDAN'S PRINCIPLE?

Jordan's Principle is meant to prevent First Nations children from being denied essential services or experiencing delays in receiving them. Jordan's Principle:

- applies to all First Nations children
- involves all jurisdictional disputes, between federal departments or between federal and provincial governments
- provides payment for needed services by the government or department that first receives the request

To support Jordan's Principle, the Government of Canada is working to:

1. resolve situations where governments and departments cannot agree about who should pay for services and supports to meet the needs of a First Nations child
2. cover the costs for health and social services and supports for First Nations children in situations when a First Nations child does not have access to a publicly funded program usually available to other children
3. facilitate access to all services and supports for all First Nations children without delay or disruption

The Government of Canada's approach to supporting Jordan's Principle includes proactive measures to help prevent any delay in accessing needed services by First Nations children.

JORDAN'S STORY

Jordan River Anderson was a five-year-old First Nations child from Norway House First Nation in Manitoba, born with a rare disorder that required hospitalization from birth. After spending the first two years of his life in a hospital, doctors felt he could return home. However, the federal and provincial government could not resolve who was financially responsible for the necessary home care in order for Jordan to return to his family in his home community 800 kilometers north of Winnipeg.

After spending over two years in hospital without cause while governments disputed who should pay for his at-home care, Jordan died in a hospital in 2005. On December 12, 2007, the House of Commons supported a motion focused on adopting an approach that addresses First Nations children's needs first, it was called Jordan's Principle.

WHAT IS COVERED?

Examples of health services that may be considered under Jordan's Principle include:

Home support and personal care; in-home nursing care; in-home respite; client assessment; case management; physiotherapy; occupational therapy; speech language therapy; in-home palliative care services for children; and certain nutritional supplements.

Jordan's Principle in BC

1 Make the call 1.866.913.0033

Tell us your story. In calling us first, our staff will help you get the supports and services you need. We will refer to any agencies that need to be involved, and help you coordinate the next steps.

If you are eligible for FNMIA benefits, this process will start right away.

It takes strength & community to ask for help

2 Get help dealing with the system

We will actively support you through the entire process, assess your child's needs, and work with you to:

- get help early on
- develop integrated care plans
- connect your child and family to needed services
- reduce the stress of navigating service systems
- support your families as they manage their needs
- involve relevant partners in your case, and as necessary, quickly address urgent service gaps

Our kids our cultures our futures are worth it

3 Find out what treatment & supports you're eligible for under Jordan's Principle

We support access to government services like:

- health care
- education
- mental health
- medical equipment
- speech therapy
- ...and more

4 Referrals & assessments

Our staff may refer you to a specialist to assess need and eligibility for treatment and/or equipment benefits. If your child is included under either Ministry of Children and Family Development or Ministry of Health mandates, we will work towards getting you treatment or necessary equipment benefits.

A Health Benefits Assessor will look into which FNMIA benefits apply and when Jordan's Principle federal funding is available.

If FNMIA is the first point of contact, we will engage with Health Canada on your behalf.

Our teachings tell us fairness is good medicine

5 Get treatment & support

Necessary equipment may be provided by federal/provincial government, or a contract service provider. We will work towards meeting established client service delivery standards for your child. Once treatment and support are underway, we will follow up.

NEW NALOXONE TRAINING

New naloxone training - online and for mobile devices

St. Paul's Hospital and TowardTheHeart.com are launching a new naloxone training that can be completed online and on mobile devices. Go to <http://www.naloxonetraining.com/>

What you need to know:

- People can complete the new training online and on their mobile device – so more people can quickly access high-quality naloxone training, while reducing the burden on naloxone sites
- The new training is comprehensive, and covers OD prevention, recognition and response
- When someone completes the training, a certificate will display on their device and you can dispense a kit to them
- People may also print off a certificate with their name on it and bring it in to your site so you can dispense a kit to them
- This may increase demand for kits at your site – please contact outreach@towardtheheart.com if you have any issues related to the new training
- We still need your help to make sure people can practice using the THN supplies. ***Please continue to provide hands-on training using our practice supplies to people who have a certificate from this training***
- ***Always make sure people understand the importance of giving breaths, and how to give breaths***, see: <http://towardtheheart.com/resource/why-give-breaths/open>
- Having a chance to use the practice supplies (needles, ampoules and snappers, gloves and breathing masks) may help people feel better prepared in an overdose emergency!

If you transfer THN kits to other sites, please share this important information with them!

For naloxone resources and information, see: <http://towardtheheart.com/naloxone>

Applications are kept for a period of 12 months.

To keep your application current or to apply, please contact Roberta Thomas.

Call 250-838-6496 ext 220.

If you are placing an application with Splatsin Housing, please obtain applications from Roberta Thomas or the front desk.

To prevent some issues such as MOLD, and Pests from becoming a problem, here are some items you need to watch for.

- Do not cover your windows too closely with heavy curtains or blankets. Allow your windows to breathe so that condensation doesn't build up and cause mold.
- Do not cover any air ducts with anything. This prevents proper air circulation in your home.
- Do not allow anything to block your hallways or entrance to any rooms. This can cause a problem in the case of an emergency and it is a fire hazard.

- Change your Furnace Filter at least every 3 months to provide you with cleaner and fresher air to breathe.
- Keep the area clear around your hot water tank and furnace/baseboard heaters
- Clean up areas containing food as soon as you can to avoid attracting ants and mice.

These are only A FEW Items that will help keep your Home in better condition.

HOUSING UPDATE

There have been many recent changes in Housing. I, Roberta Thomas, will be here full time.

The best method of communication to reach me with any concerns, questions or housing need is to call/text (250)308-7038; email: splatsinhousing@splatsin.ca.

Please **fill out a maintenance and repair request at the office**. We currently have no one in housing as a maintenance worker, so your requests may take slightly longer to process. Contractors will be brought in as needed. Non-emergency repair items will be assessed.

Sabrina Vergata for Council

My name is Sabrina Vergata. I am the daughter of Perry and Maureen Roberts and granddaughter of Jean Brown and Gerald William.

I currently live in Surrey with my daughter, Amira.

I spent most of my life in Enderby and have been an active member of our band. I was a youth worker at the Splatsin Community Centre for over a year and during my time there I was immensely inspired by our youth.

The youth will be our future no matter what and it is time to step in the

direction of passing on our knowledge. As a mother and youth, I know the importance of educating our people.

One of my priorities will be to increase the programs that we have to support our youth of our band and will ensure we are always looking to the future while respecting our past and traditions.

With the life experience that I have gained, I know how much time and energy it involves getting things done. If you want change for our band, please vote for me to start our path involving the youth of our future.

All my relations,
Sabrina Vergata
